PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of experience designing, developing, and maintaining scalable web applications using React.js, Java, Spring Boot, and MySQL. Leverages AI coding assistants (Cursor AI, Windsurf, GitHub Copilot) to accelerate development workflows, improve code quality, and rapidly prototype features. Strong in end-to-end development including responsive UI design, RESTful API integration, and database management. Adaptable to emerging AI developer tools to enhance productivity while maintaining clean, production-ready code standards.

PROFESSIONAL EXPERIENCE

Kapil Technologies | Full Stack Developer

May 2025 – Present | Hyderabad, Telangana

- Leveraged AI coding assistants (Cursor AI, Windsurf) to accelerate feature development, reduce boilerplate coding time by ~30%, and rapidly prototype UI components while maintaining production-ready code quality
- Developed and delivered 3+ responsive web applications for staffing services, online education platforms, and internal portals using React.js and Spring Boot
- Built reusable React components, reducing code duplication and improving development speed across multiple projects
- Developed an online education platform with course listings, user registration, and content management features
- Actively contributing to internal company web portals by implementing new features, improving UI, and fixing bugs
- Designed and consumed RESTful APIs using Spring Boot and JPA/Hibernate for smooth frontend-backend communication

Frontend & UI Development

- Built reusable React components to ensure consistency across multiple projects
- Implemented responsive layouts using Tailwind CSS and CSS3 for cross-device compatibility
- Improved UI performance and usability through component refactoring and bug fixes

Backend & Collaboration

- Developed scalable backend services using Spring Boot and MySQL
- Collaborated with cross-functional teams following Agile methodology to gather requirements and deliver solutions
- Participated in code reviews and followed Git version control best practices

TECHNICAL SKILLS

AI Development Tools: Cursor AI, Windsurf, GitHub Copilot

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Java, Spring Boot, RESTful APIs, JPA, Hibernate, MVC Architecture

Database: MySQL, SQLite

Tools: Git, GitHub, VS Code, Postman

EDUCATION

B.Tech in Computer Science and Engineering | CGPA: 6.60/10

Vikas College of Engineering and Technology | Vijayawada, Andhra Pradesh

Aug 2019 – May 2023

Intermediate (MPC) | CGPA: 9.0/10

Viswa Sri Hayagreeva Junior College | Gudivada, Andhra Pradesh

Jul 2017 – Feb 2019

Secondary School Certificate (SSC) | CGPA: 9.2/10

Hema Sri Hayagreeva EM School | Gudivada, Andhra Pradesh

Jun 2016 – Apr 2017

ACADEMIC PROJECT

Facial Emotion Recognition System | Team Leader

Sep 2022 – Mar 2023

- Led 4-member team to develop CNN-based real-time facial emotion recognition system using Python and OpenCV
- Implemented image preprocessing techniques including normalization and edge detection to improve recognition accuracy
- Integrated system with live camera feed for real-time emotion analysis

CERTIFICATIONS

- Java Full Stack Developer Certification | 2024
- Python Programming Internship | 2022
